📄 Jupyter notebook/lab python-3.11.1

Poullard Remote Desktop Job

This app will launch an interactive desktop on one or more compute nodes. You will have full access to the resources these nodes provide. This is analogous to an interactive batch job.

Number of hours

3

Number of nodes

1

Cores per node

4

Number of cores per task/node

Per Node Memory

10G

Per Node requested memory (e.g. 100m, 12G, ...)

I would like to receive an email when the session starts
